

# Trade journal - 20 rows

One setup. One risk percent. Do not change the rules until row 20 is filled.

| #  | Date | Market | Stake | Setup (one sentence) | Result | Broke a rule? | Emotion |
|----|------|--------|-------|----------------------|--------|---------------|---------|
| 1  |      |        |       |                      |        |               |         |
| 2  |      |        |       |                      |        |               |         |
| 3  |      |        |       |                      |        |               |         |
| 4  |      |        |       |                      |        |               |         |
| 5  |      |        |       |                      |        |               |         |
| 6  |      |        |       |                      |        |               |         |
| 7  |      |        |       |                      |        |               |         |
| 8  |      |        |       |                      |        |               |         |
| 9  |      |        |       |                      |        |               |         |
| 10 |      |        |       |                      |        |               |         |

## Rows 11–20

| #  | Date | Market | Stake | Setup (one sentence) | Result | Broke a rule? | Emotion |
|----|------|--------|-------|----------------------|--------|---------------|---------|
| 11 |      |        |       |                      |        |               |         |
| 12 |      |        |       |                      |        |               |         |
| 13 |      |        |       |                      |        |               |         |
| 14 |      |        |       |                      |        |               |         |
| 15 |      |        |       |                      |        |               |         |
| 16 |      |        |       |                      |        |               |         |
| 17 |      |        |       |                      |        |               |         |
| 18 |      |        |       |                      |        |               |         |
| 19 |      |        |       |                      |        |               |         |
| 20 |      |        |       |                      |        |               |         |

## Weekly review

Broken-rule count first. Then wins / losses. Then whether the daily stop was hit. A green week with ignored stops is still a failed sample.

| Question                      | Answer |
|-------------------------------|--------|
| Trades completed              |        |
| Rules broken                  |        |
| Daily stop hit how many days? |        |
| Same setup the whole week?    |        |
| What I will keep              |        |
| What I will not do next week  |        |
